

The Joy of Smalltalk

By Dr. Ivan Tomek

I met Ivan back in early 2000, and we sympathized. Back then, he gave me its first book on Josef a microworld to teach programming. This resonated with my “Squeak learn programming with robots” book.

So I assembled this PDF based on the PDFs Ivan gave me back then. Possible mistakes are mine. His book was never officially edited but it was distributed as part of my collection of free smalltalk books.

I added this book to the Smalltalk book Anthology
https://hal.science/SMALLTALK_ANTHOLOGY

This is my tribute to Ivan’s work. Thanks again Ivan for this material.
